

Dream Come True

Drug-Free!

CYTOPOINT™ from PETPOINT

Relief from itching with a single injection of **CYTOPOINT™**, a NEW Biological Immunotherapy (non-pharmaceutical treatment).

4 - 8
weeks

With winter rains at their highest levels, a severe allergy season is about to impact many of our dogs. CYTOPOINT™ is safe to use in dogs of any age, and can be used with common medications.

In a survey more than **85%** of owners said that their dog's quality of life, as well as their own, improved after beginning treatment with CYTOPOINT™.
